Java (Swing, JEE), PHP, jQuery, WordPress, MySQL, JavaScript, DataTables

SIDE PROJECTS & PERSONNAL DEVELOPMENT

Jan 2019 - Present

La Mater
Cameroon

CEO at La Mater

La Mater is a startup that I've launched in 2019 with some friends. Today (Apr 2022), La Mater is a team of 18 employees who work in various fields such as Home grocery deliveries in Cameroon, data management, marketing, sales and software programming. We also have more than 1000 customers around the world who uses our products. Launching this startup helps me develop many skills and learn a lot about team management and time management. I also improved my skills in software development by building (in team) some products that are very useful such as :

Lamater.net / Hostme.space / iShare.cm / Genuka.com

Organization, Management, Productivity, Efficiency.

Figma (Design), Flutter, Laravel, NodeJS, Angular, React, Git, AWS S3/EC2
